2022-2023 OFFICIAL REPORT

STATE OF BLACK LOS ANGELES COUNTY

BY THE ANTI-RACISM, DIVERSITY, AND INCLUSION (ARDI) INITIATIVE, CHIEF EXECUTIVE OFFICE, COUNTY OF LOS ANGELES

The State of Black Los Angeles County Report, is an online interactive report comprised of several in-depth sections centered on the outcomes and lived experiences of Black people in Los Angeles County across a host of metrics. In this report, we assess how Black residents are doing on 36 indicators, all within the domains of health, housing, income and employment, education, and safety and justice.

The report features a series of bar charts, dashboards, and interactive maps enabling users to see racial disparities in outcomes across several indicators and visualize the geographical areas in the County with the most challenging outcomes and/or highest need. It also outlines some of the drivers and root causes of these outcomes as explained by local experts in the field and our review of the peer-reviewed literature in each topic area. For select indicators, we include infographics ranking the highest need communities within each Supervisorial District.
